

## Artemis Fowl and The Time Paradox By Eoin Colfer (published on 7<sup>th</sup> August) Competition for fans age 8 and over

In Artemis Fowl and The Time Paradox, criminal mastermind Artemis Fowl and fairy Captain Holly Short of LEPrecon travel back in time. If you were going with them which 2 useful items would you take with you and why?

Solar multi language translator.  
Gold.

I would take a solar multi-language translator because whenever I go and whatever I do, I will be able to understand everything. So if I was in trouble I would be able to ask for help.

I would take gold because then I could exchange it in any country in whatever period of time to fulfil my needs.

These items are essential for survival so I can blend into my surroundings in order to achieve my quest.
