

Bournemouth Transitions Pathway for young people with SEN or Disabilities moving into Adult Social Care or Adult Health Services

Aged 14 -15 / Year 10

Identify all young people who may require transition:

- Those open to CSC
- Those with EHCP
- Other's e.g. vulnerable learners, mental health units, secure units

Identify the young people who are in receipt of Children's CHC

Age16- 17 /Year 12

- CSC practitioner or SEN (as appropriate) completes Transitions referral and sends to Bournemouth Care Direct for assigning to the Transitions Team on Adult RAISE
- Keyworker for transition identified at TOG
- Keyworker attends CIN/LAC/SEN meetings as appropriate
- Keyworker Informs young person/families of the transition process

N.B. overall responsibility for those young people with an allocated CSC/Inclusion/Pathways Social Worker remains with that worker

Age 17 -18 / Year 13

- Transition assessment to be completed to include MCA and BIA as relevant
- CHC checklist completed and DST commenced (as appropriate)*
- CAMHS to refer young people to adult Health Services as appropriate

Case to be presented at TOG prior to the young person reaching 17.5 along with:

- Proposed Support Plan to include recommendation for ongoing education
- Proposed costs (or if not available, indicative costs) to meet identified needs within the support plan (A0314)
- Update on CHC recommendation as relevant

Age 18 – 25 years

Ongoing monitoring and planning for all young people remaining in education and for whom a further transition will be required

- cases to be returned to TOG as further ASC and/or Education decisions are required as relevant to that young person
- Input from Pathways worker to be maintained as relevant
- Input from health workers to be maintained as relevant
