HR Service Centre

The services provided include:

- Payroll support for all employees and managers
- Transactional matters including starters, changes, leavers, terms and conditions, pension, benefits and more
- Recruitment including DBS and Agency workers
- Systems and helpdesk
- Management information, HR reporting and KPIs

How are we organised?

What are our key risks and assumptions?

Risks

- Embedding Business Partnering model successfully across two organisations with shared management teams
- Capacity to deliver day to day business as well as supporting implementation and delivery of TUPE workstream for BCP Unitary Authority
- Risk of future loss of income from Education customers
- Achieving successful outcomes to the delivery of TUPE transfer, i.e. no delays and effective payroll for the new organisation.

Assumptions

- Disaggregation data from the BCP Programme will be delivered on time and provide clarity in terms of workforce scope for TUPE.

What were our key achievements last year?

- The HR and OD Service has been reorganised to deliver a shared service with Borough of Poole, reducing the salaries budget by 24%
- Mandatory Mental Health Training has been delivered to Managers across all services
- The Council won an award for Payroll Charitable Giving
- The Job Evaluation Process has been improved and refined for the benefit of our customers
- Implementation of working procedures to support new legislation regarding engaging consultants (IR35)
- Employment data dashboards are widely used by services to inform and manage staff
- Various Wellbeing activities have been arranged such as personal coaching for employees on a group basis and a number of resilience interventions.
- NHS Free health checks have been facilitated for staff
- More robust controls have been put in place to monitor agency worker usage
- Service Improvement Plans are in place for each of the HR Teams.
- Numerous programmes of change handled safely with expertise along with budget reductions.

Public Health

Local authorities have a legal duty to improve health and wellbeing of residents and to reduce inequalities in health between them under the Health and Social Care Act 2012. Ambition 2020, the Council's Corporate Plan, sets out a clear priority reflecting this legal duty (AC3 – improving health and wellbeing and reducing inequalities for residents). Although there is a public health service plan that sets out the main activities of the public health team in Bournemouth, and how this will benefit residents, many of the public health issues are complex and require action on many fronts if we are going to be effective at improving health and wellbeing.

Staff Performance - Appraisal Conversations

The Appraisal Conversation Policy sets out that Annual Appraisal Conversations will take place within a two-month window defined by Service Directors. Interim reviews take place six months later.

Our appraisal two-month window is August/September

2. What are our key activities in 2018/19?

The activities that follow help us to deliver the priorities set out in Bournemouth Council's Ambition 2020 Corporate Plan. The activities also support our Equality and Diversity objectives and our Climate Change strategies.

List here the key activities for the Service Unit in the coming year. Service Units should have their own detailed team plans/action plans that sit below service plans, for their own operational use.

Corporate Priorities

This section is not intended to be a list of everything the Service Unit does.

For reference, Bournemouth Council's priority outcomes – Ambition 2020 are listed in the Corporate Plan:
<http://www.bournemouth.gov.uk/CouncilDemocratic/AboutYourCouncil/PlansandPerformance/CorporatePlan.aspx>.

Equality and Diversity

The Equality Objectives for Bournemouth are set out in the 'Better for All Strategy 2017-2019'

Adapting to Manage Risk

[Our Climate Change Strategy](#) prioritise the extreme weather events that pose a risk to business continuity. Services should include in Plans how they are adapting to minimise impact on service delivery. This could include: reducing flooding of roads or buildings; heatwave/cold weather plans; more resilient road surfaces; protecting the coastline; remote working if offices are inaccessible.

What are the business as usual activities we deliver?
